

OCEAN ISO9650 Liferaft

We have taken years of experience in designing and servicing liferafts to develop this innovative, lightweight liferaft. Manufactured to meet the rigorous ISO 9650 Type 1 Group A requirements and 3rd party accredited.

CONSTRUCTION

Buoyancy - Tubular construction ensuring only 2 internal seams are used, significantly reducing abrasive damage during use.

- New inflation system tested to SOLAS standard.

- **Floor** - Fully bonded floor allowing repairs during use whilst maintaining full insulation.
- **Containers** - Strong yet lightweight, low profile GRP, offering excellent size choices.
- **Valises** - Piped edges for enhanced wear, equipment list slots, clear pictorial instructions.

REGULATIONS

- Meets requirements under current MCA Code of Practice, Class XII and ISAF Special Regulations. Can be packed with Over 24hr pack for the ARC or to SOLAS B.
- Both packs can be included in the container or valise so no need for grab bags.

BOARDING

Ladder with aluminium tubes for better purchase, full knee scoop with grab handles midway and at the top, hand over hand ladder extending internally.

MATERIALS

Buoyancy - New high tenacity nylon coated PU in a sandwich construction, providing a greater wear resistance and a longer service life.

- Highly visible yellow buoyancy for maximum visual impact. Canopy - PU coated nylon for a longer life.

FEATURES

- Highly visible.
- Superior boarding system.
- Water ballast exceeds ISO requirements:
4, 6 & 8 man = 4 x 75L = 300L
10 & 12 man = 6 x 75L = 450L.
- SOLAS Approved lighting systems.
- Standard recommended service interval of 3 years.
- Rainwater collector.
- Observation port.
- Pictorial instructions printed on the raft.
- Designed, tested and made in the UK

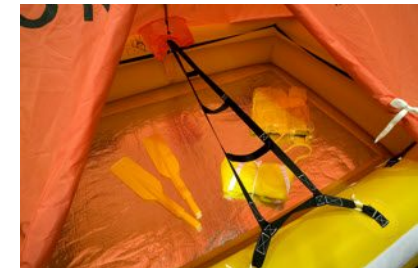

TEST DATA

- ISO Type 1 Group A <24hr.
- Drop tested to 6m.
- Swamp tested for 100% overload.
- Boardable at +5°C in under 1 minute.
- Inflation tested from -15°C to + 65°C.

PACK CONTENTS

- Exceeds the requirements of ISO 9650 (See reverse for full list).
- SOLAS B and >24 hour packs.

OCEAN ISO9650 Liferaft

Weights, Dimensions & Emergency Packs

EXCEEDING EXPECTATIONS

The New Ocean ISO Liferaft exceeds ISO regulations in the following ways;

- 1) Each liferaft exceeds the water ballast minimum by at least 80L, providing additional stability.
- 2) The < 24hr emergency pack exceeds the requirements for equipment; including 1 extra parachute rocket, 500ml of water per person, 1 extra torch and a fully approved SOLAS light.

VALISE LIFERAFTS

Size	Liferaft Valise < 24 hour pack			Liferaft Valise SOLAS B Pack
